MONEY SCARCE.

For the past year trade has been dull, but money has been cheap and plenty at all the great commercial centres, but now even this is becoming scarce. The demand upon the New York banks has been more than they could supply. The decrease there last week of legal tender notes was over \$4,000,000, and the interest has risen from two per cent to five per cent per annum. If this drain upon the banks continues money will very soon be at a high rate of interest again, and dear money, both here and in Liverpool, will prevent the rise in cotton which many persons are expecting about this time. - The reporter is gratified to be informed that numerous persons have either given or promised to give books to the Young Men's Library association. Reader, remember the old Anglo Norman carol:

-My card and my bell Do my calling tell. Do my calling tell."

From the jingle of bells in certain localities yesterday, it is to be presumed that the auction business was very lively.

—Prof. Edward L. Seymour, of New York city, is visiting Atlanta for the purpose of making some experiments in metal, and to introduce by exhibition his process of making steel directly from Iron ore. He comes highly recommended.

—Whether Galileo was or was not tortured or threatened with the rack, when he stood before the tribunal of the inquisition, may be a question never to be decided on positive and satisfactory evidence; but it is, nevertheless, a well founded fact that The Constitution's piano at Barth, Turner & Braumuller's, is very much admired.

—Sweet and hallowed associations crowd around the words—Sunday morning. Last night the busy din of busy life ceased—cares and anxieties were forgotten; the wornout frame sought its needed repose, and the mind its relaxation from earth and its concerns, with joy looking to this morning and day of rest wisely set apart for man's peace and happiness by the Creator.

—In his annual address to the legislature, a day or two ago, Gov. Allen, of Ohlo, in calling attention to the propriety of considering whether the compensation of county officers is not disproportionate to the salaries of other public officers, and of persons in private life, said: "Public servants should be reasonably compensated; but salaries of other public officers, and of persons in private life, said: "Public servants should be reasonably compensated; but salaries and fees should not be so high as to make the getting of office a profession, and to enable candidates and applicants to buy their way to public places." These are sound sentiments. Office seeking is a weakness now with many of our people.

—A mule of lively imagination, yet weak nerves, while attached to a dray, afforded some amusement at the Whitehall street crossing yesterday morning. Standing in deep meditation with one ear thrown back on his neck, and the other typed forward, with a knowing look from its eye, was watching the large crowd pouring over the crossing. with a knowing look from als eye, was watching the large crowd pouring over the crossing. Doubtless he was thinking of the dangers attending the place, pe-haps he was speculating on the contemplated stairways, or the legality of the ordinance recently passed by the council. Seeing men and women rushing over, he put out and passed over at a two-forty speed, which increased as he ratified by the National. The driver threw himself into the bottom of the dray, and bracing his feet against the front of the wagon, held tightly to his "ribbons." In going up Peachtree the mule became forgetful of the injunction of Locksley in Ivanhoe, in shooting at a mark, to "allow for the wind." At least he did not go clear, but ran against a hack in front of Mardin's fruit stand. This put an end to his further progress.

J.P. Fields moved that the corresponding secretary extend congratulations to the Newman association recently organized. Revs. C. C. Williams and D. E. Butler were elected as honorary members of the association, together with several others as active

Chickering & Sons' Pinne-Forte Factory, Boston, Massachusetts ESTABLISHED BY JONAS CHICKERING, APRIL 15TH, 1823.

We present to our readers to-day a splendid engraving of the oldest, finest and largest Piano manufactory in the world—that of the renowned Chickening & Sons, Boston, Mass.

The four fronts of this factory, if placed in straight line, would give a building \$25 feet long by 50 feet wide. This measurement does not include the immense lumber and drying hoses in the rear of the main building. It is said to be, from actual measurement, one-third larger than the largest factory in America. The machinery of this immense structure (which contains \$24,570 square feet of working room) is of the most varied and costly character. Hand work has, as far as practicable, been superceded by machinery—so that the actual work performed is equivalent to the labor of 1,200 men. This immense force is necessary to turn off, as they now do, sixty Planos per week—and even at this they are unable at all times to supply the demand for these superb instruments.

The most scrupulous care and watchfuluess is observed in the manufacture of shee instruments, and it is this that has given them the envisible reputation the wanufacturers enjoy of making the best Planos in the world. We are pleased to learn from their General Southern Agents, Massas. Guillford, Wood & Co., of this city, that the demand for these established favorites is constantly on the increase.

THE OLDEST MUSIC HOUSEIN NORTH GEORGIA M. E. CON-

ATLANTA." Fourth Day's Proceedings. Established 1852. The "Cold" South ern Music House.

Turner, Braumuller; and Barth, Proprietors.

The oldest exclusive Music House in Atlanta was established in the year 1852 by Mr. H. Braumuller, (the father of Mr. O. L. Braumuller, one of the partners) while Atlanta was yet in her infamy. The "Braumuller" name has therefore become a household word in musical circles.

Mr. O. L. Braumuller, one of the firm, having spent four years in Europe to pe feet his education, both in music and literary, is quite a musician, in whose judgment one can rely in the selection of a good instrument.

Mr. Carl F. Barth, the sculor partner of the firm, is too well known, to need com-ment at our bands, since to say: that he came to Atlanta in 1852, and has been enan instrument.

Turner, Braunuller & Barth have a large stock of pianos, organs, sheet music and musical merchandise. Amongitheir celebrated pianos we notice, the world renowned Keimony & Sons, who have taken every prize and medal wherever their pianos have been placed in competition with others, both in Europe and America.

They are wholesale manufacturers agents for the south for Steinway & Sons, Heinekamp, Haines Bros., Southern Pride, Dixie and other celebrated pianos.

delebrated pianos.

Our friends wou'd do well to call o here gentlemen, and test the superiority of here instruments over all others.

While in their establishment we also had occasion to look at their stock of sheet music which is, without a doubt tee linest stock of sheet music which is, without a doubt tee linest stock or casion to look at their stock of sheet music, which is, without a doubt the finest stock of popular American, and foreign imported sheet music in the city.

Wishing the firm as prosperons a future, as they have had in the past, we bid them an "affectionate adjeu."

DURING the holidays it is pleasant to know where to secure for a little money, some articles of real genuine merit, (the more beautiful because it is useful) with which to gladden the hearts of the loved ones at home. Many of our readers no doubt know full and well that McBride's is the place, where many gems of beauty and useful articles can be had for a very little money. But we suppose that there are a great many ladies and gentlemen especially among the new comers to our city, who have no idea what a Spiendid Ghina Philace McBride has established in our city. And it is to this class we say, don't fail to pay the China Palace a visit, if you need anything, you will see another splendid evidence of Atlanta's enterprise, and will see such a magnificent display of useful and beautiful goods that you will at least linger awhile to look at them.

I AM engaged in the manufacture of the Celebrated Family Medicine, known as the Calhoun Liver and Anti-Bilious Pills, under the supervision and assistance of Dr. Calhoun himself. This Pill has been in use for the last 25 years, and has taken precedence over all other Family preparations by all that have used them. Thousands would certify to their great value if necessary. One fact should supercede any amount of certificates, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prison for over seven years, when the number of prisoners ranged from 20 to 70, laboring under all the diseases incidental to this climate. With but few exceptions they have all been treated with this Pill, and astonishing to say during that long period not a solitary death during that long period not a solitary death occurred under his treatment. This fact is vorth any amount of testimonials.

In again calling attention to our popular grades of flours, we will attempt no further elaboration of their merits, except to say, that no flour in the wide world, can surpass our FFF in purity of stock and richness of sample; and that the world can't produce a more substantial or nutritive flour than our FFF.
